Celebrating the birth anniversary of Dr. A.P.J. Abdul Kalam & World Student's day

Aim & objectives:

The Institution's Innovation day – World Student's day celebration which mark the birth anniversary of the former President of India Dr APJ Abdul Kalam aims

- To foster the spirit of creativity and innovation among students

- To recognize the importance of these qualities in the current world.

- To promote great education for everybody, regardless of background.

- To celebrate youth and their influence on the future.

- To motivate students to dream large, strive for growth and have a passion for learning

- To inspire and guide young people and students

Extracurricular activities are organized for students on this occasion for two days i.e on 30th and 31st October, 2023. The event objectives include

- Helping students in gaining the holistic development and groom the students by teaching them the value of working in a team and being disciplined.

- Participating in extracurricular activities can help students build their social skills, improve their academic performance, develop leadership skills, and provide valuable experiences and opportunities that can help them in their future careers.

- Additionally, participating in extracurricular activities can help students to develop a sense of purpose and meaning outside of their academic studies, which can be beneficial for mental health and overall well-being.

- It can also have a positive impact on academic performance. Students who are involved in extracurricular activities tend to have higher grades and are more likely to graduate on time. This may be because participating in extracurricular activities can provide students with a sense of motivation and purpose, which can translate into better academic performance.
